

Academic requirements for entering IB DP (internal students in pre-IB classes)

According to Admissions Policy, students must achieve at least a “2” grade in a particular subject to pursue the subject in the related DP subject group at a higher level. If students are unable to apply for 3 courses at a higher level, they cannot fulfil the general requirements of IB DP and cannot get the full Diploma. As a result, they will be encouraged to move to a parallel non-IB DP class or receive a non-examination student status¹.

This document brings essential information about the list of subjects in the 2nd pre-IB class and the linkage to particular IB DP subjects.

Requirements for entering IB DP subjects at a higher level (HL)
